SCHOOL FOR NURSES,

1750 W CONGRESS STREET

Principal

M. HELENA McMILLAN,

Chicago, Ill.

On Thursday, November Eleventh, 1920, the first "Home Coming" for the graduates of the School will be held. There will be an open house at the Sprague Home from Two p. m. until Eleven o'clock. Will you not come?

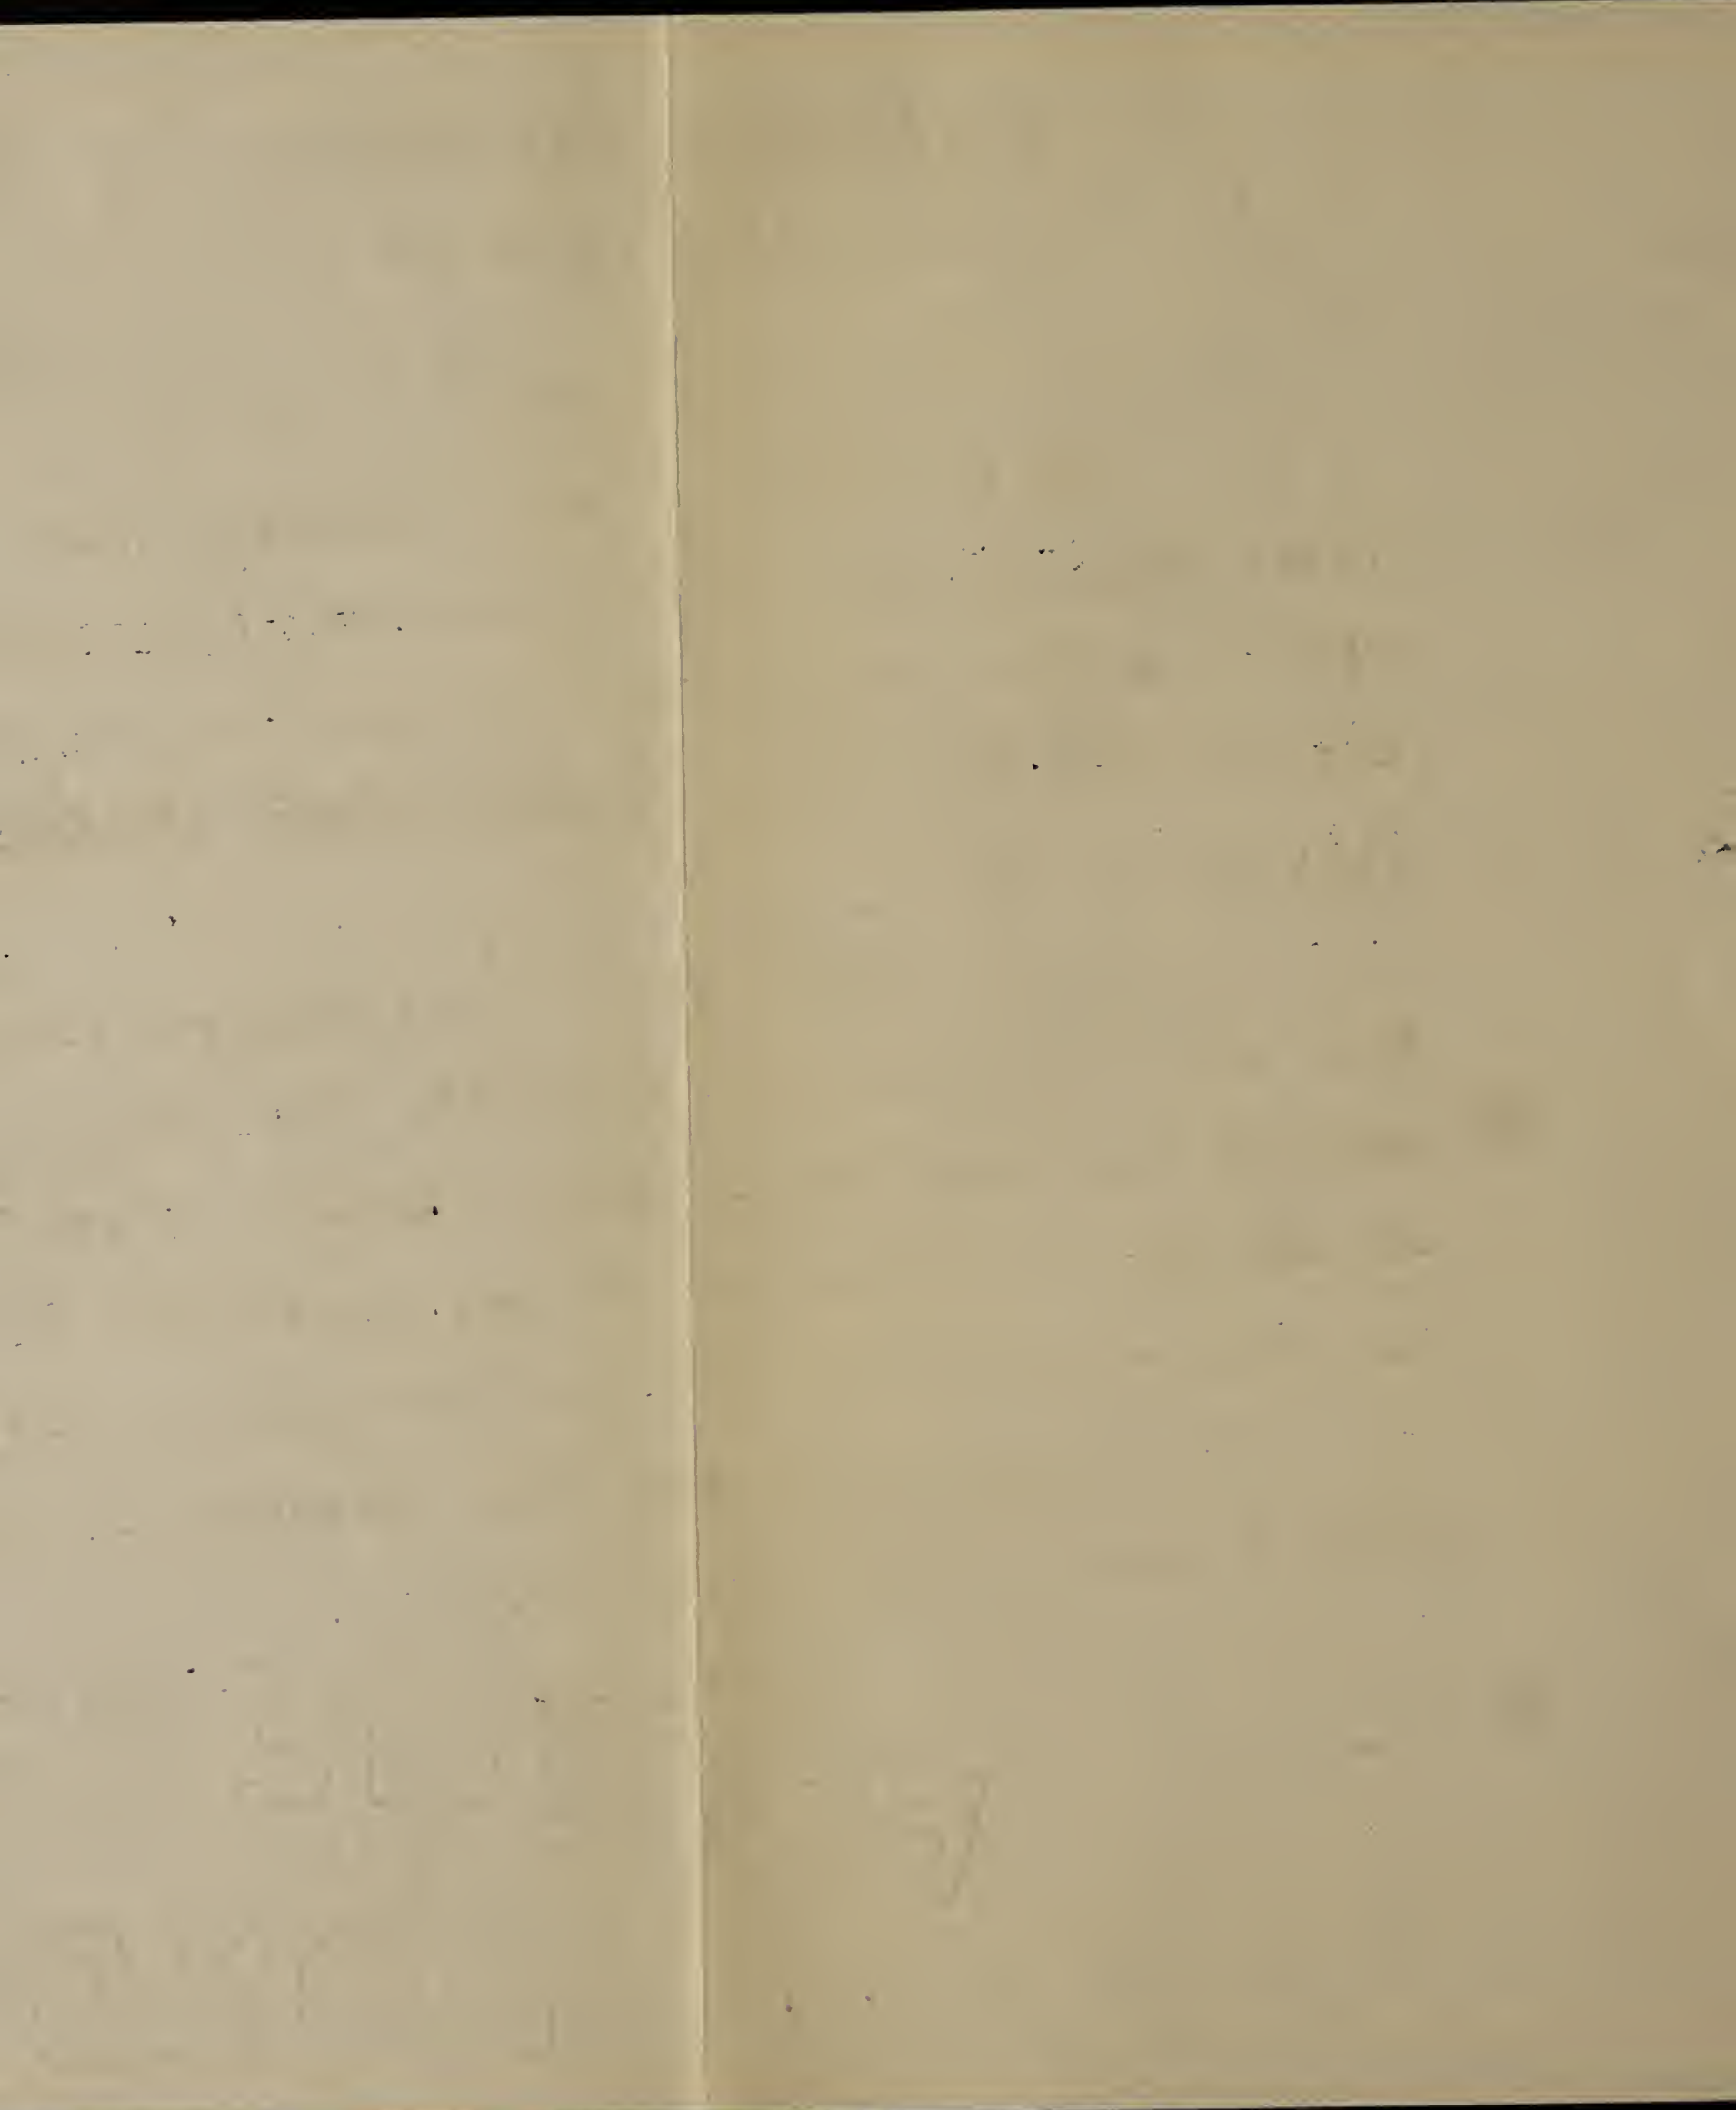

If you have a husband and children bring them but in any case come yourself. The addresses of some of our graduates are unknown to us. If you know of any who have not been notified, please send us their addresses or invite them to come November the Eleventh.

Kindly let us know about November the First whether or not we may expect you.

Sincerely,

HHH-K

M. Helena

The
School for Nurses

The Presbyterian Hospital
Chicago

Affiliated with Rush Medical College
and with the University of Chicago

Announcement
1920-1921

INTRODUCTORY STATEMENT

THE School for Nurses, established in 1903, started with the advantage of being able to adopt only approved methods of organization. The eight hour day, the six months preparatory course with intensive class instruction, the opportunity of practical training in the Presbyterian Hospital bringing contact with leading members of the medical profession, affiliation with Rush Medical College assuring class instruction by the members of that staff, all combined in placing the new school among the leading nurses' schools of the country. Each year it has been the effort of those in charge to develop the school, to elaborate its practical and theoretical courses of instruction, to grow and branch out in all ways beneficial to the students of the school.

GOVERNMENT

The School is a part of the Presbyterian Hospital governed by the Board of Managers, which is responsible for the education, health and general welfare of the students. This Board is assisted in advancing the interests of the School by the members of the Woman's Auxiliary Board, a strong organization which does much to aid in the home life of the student and is vitally interested in everything which pertains to her advancement. A special school committee composed of professional and non-professional members, also contributes to the better interests of the School.

GIFTS

In 1909, Mr. Nelson B. Holden left to the School the sum of three thousand six hundred forty nine dollars and eighty-six cents, the yearly interest of this to be used for the benefit of the School.

In March, 1920, the Nurses Alumnae Association voted an annual subscription of twenty-five dollars to be used for professional and other magazines for the Library.

During the year 1919, Mr. and Mrs. Albert M. Day, Mr. Ernest Hamill, Miss Helen V. Drake, Mrs. David W. Graham, Mrs. Ernest E. Irons, Mrs. Holmes Forsyth, and other friends of the School have made their customary contributions of books, fruit, flowers, at Christmas and other festive seasons.

AFFILIATION

Besides affiliation with the University of Chicago through Rush Medical College, which provides instructors for a portion of the class work and practical experience in the care of all its many clinics, close co-operation has existed since the organization of the School with the Central Free Dispensary, where also student nurses have the privilege of attending valuable clinics.

More recent affiliations have been made for contagious training with the Durand Contagious Hospital, for mental training with the Chicago State

Hospital. In addition, since 1918, through scholarships granted by the Chicago Chapter of the Red Cross selected students may take Public Health courses at the School of Civics and Philanthropy.

LOCATION AND EQUIPMENT

The faculty and students of the School live in the Sprague Home, a modern fire proof building completed in 1912, opposite to and connected by subway with the Presbyterian Hospital. It is provided with well equipped laboratory, library, and other class rooms, while bed rooms, dining, recreation and reception rooms are comfortable and cheerful.

The use of the roof of the Home for sleeping and other purposes during hot weather helps to make the summer more pleasant.

The Presbyterian Hospital offers unexcelled opportunities for experience in medical, surgical, gynæcological, obstetrical and children's nursing, while training and experience in other branches of nursing are arranged for by affiliation.

Graduate nurses instruct and supervise the practical and theoretical work of the student nurse: dietetians, social service and occupational therapy workers direct the student while in those departments. This with the assistance of the Medical Staff of the Presbyterian Hospital and of the faculty of the Rush Medical College provides a complete and high order of instruction and assures a steady advance in modern nurse education methods.

The address of the Sprague Home is 1750 West Congress Street, between Hermitage Avenue and Wood Street, and can be reached by any of the trains of the Metropolitan Elevated Railway, the Marshfield Avenue station of which is three blocks east of the Home; by the Ogden Avenue and Van Buren Street electric lines, which cross Wood Street one block south.

The telephone number is West 2027. Address all correspondence to the Principal, 1750 W. Congress Street, or at the Presbyterian Hospital, Chicago.

The following courses are in charge of The Rush Medical College, the instructor being selected with the advice of the Head of each department of the College:

CHEMISTRY, MATERIA MEDICA AND TOXICOLOGY.

Walter Stanley Haines, A. M., M. D., Professor and Head of the Department, Rush Medical College.

BACTERIOLOGY.

Ludwig Hektoen, M. D., Sc. D., Professor and Head of Department of Pathology, Rush Medical College.

PREVENTIVE MEDICINE, HYGIENE AND SANITATION.

Theodore Ticken, M. D., Professor and Head of the Department of Therapeutics, Rush Medical College.

GENERAL MEDICINE AND PHYSIOLOGY.

Frank Billings, Sc. D. (Harvard), M. D., Professor and Head of the Department, Rush Medical College.

ANATOMY, SURGERY, ORTHOPEDIC SURGERY.

Arthur Dean Bevan, M. D., Professor and Head of the Department of Surgery, Rush Medical College.

CHILDREN.

John Milton Dodson, A. M., M. D., Professor of Medicine, Rush Medical College.

DISEASES OF THE SKIN.

Oliver Samuel Ormsby, M. D., Professor and Head of the Department of Skin and Venereal Diseases, Rush Medical College.

GYNAECOLOGY AND OBSTETRICS.

John Clarence Webster, M. D., F. R. C. P. (Edin.) Professor and Head of the Department, Rush Medical College.

NERVOUS AND MENTAL DISEASES.

James Cornelius Gill, M. D., Associate Professor of Medicine, Rush Medical College.

EYE.

William H. Wilder, M. D., Professor and Head of the Department of Ophthalmology, Rush Medical College.

EAR.

George Elmer Shambaugh, M. D., Professor of Laryngology and Otology, Rush Medical College.

NOSE AND THROAT.

Stanton A. Friedberg, M. D., Assistant Professor of Laryngology and Otology, Rush Medical College.

GENERAL STATEMENT

REQUIREMENTS FOR ADMISSION.

STUDENTS entering the end of March and the end of September should be between the ages of twenty and thirty-five; they must present evidence of good health, of good moral character, and of having completed an education equivalent to at least four years of high school. Before entrance a Qualifying Certificate, obtained upon application from the Department of Registration and Education, Springfield, Illinois, must be secured and sent to the School.

It is desirable that the candidate make an appointment with the Principal of the School to apply in person. When this is not possible, a written application may be submitted.

Young women preparing for nursing work do well to select in their school work such subjects as Chemistry, Bacteriology, Biology, Sociology, and Psychology. Credit is given to candidates who have graduated from approved colleges, and to those who in a part college course have included in their work the basic sciences and who present suitable records from their colleges.

The first six months of the three years' course consists of a preparatory period during which time intensive instruction is given to the student to prepare her for nursing duties. For five days of the week, 2 to 4 hours are spent in the class room, while practical training under supervision covers from 4 to 6 hours daily.

At the end of six months, if the student has shown evidence of a general fitness for nursing, good health and ability to keep up with the class instruction, she is allowed to adopt the school uniform and is placed on eight hour nursing duty in the Presbyterian Hospital.

Students are free one half day each week and part of Sunday when they are privileged to visit friends or places of interest in the city.

If ill while in the School, the student is cared for gratuitously by the members of the Medical Staff.

Three months vacation is granted during the three years. As lengthened or repeated absences from the School prevent the student **keeping up with** her class, she is advised to use the vacation allowance for rest and recreation only, and to avoid unnecessary interruption in her studies.

With the exception of a Registration Fee of ten dollars paid at the time the candidate is given an appointment in the class chosen for entrance, no fees are charged.

Board, room and a reasonable amount of laundry are provided from the date of entrance, personal expenses only, including uniforms and text books being borne by the student.

The Woman's Auxiliary Board grants small monthly loans to students recommended by the Principal of the School. At least six months residence is necessary with a record of general fitness before a loan may be permitted.

The Woman's Board also grants after six months' residence scholarships of ten dollars a month to young women preparing for the missionary field and who have already been accepted by the Board under which they expect to serve.

Candidates whose homes are in Chicago may be accepted as day students, returning to their homes each night for the first two years of training, special arrangements of hours of duty being made for this group. The same privilege is granted selected women, non-residents of Chicago, whose age and other qualifications make this permissible. In both cases the third year is expected to be spent in residence in the Sprague Home.

The social life of the students includes suitable celebration of the birthday of the School, and other local and national anniversaries; informal parties or dances upon request of members of the household; attendance at the weekly meetings of the Y. W. C. A., and rehearsals of the Florence Nightingale Chorus. Pianos, a victrola and moving picture machine all help to bring interest and pleasure to the students.

Commencement exercises are held annually. Students who successfully meet the requirements of the School are presented with diplomas and School pins. The diploma of the School admits the graduate for examination to become a Registered Nurse in Illinois, or other states where registration laws are in effect.

The Alumnæ Association, organized in 1906, is a means of mutual benefit and pleasure to the graduates of the School. By membership in the Alumnæ Association each graduate becomes a member of the District, State and National Nursing Organizations and is eligible for membership in the nursing service of the National Red Cross. Use of the endowed room in the Presbyterian Hospital when ill, is another of the many privileges of membership.

SCHEDULE OF CLASS ROOM WORK

PRELIMINARY CLASS (6 Months)

April, May Oct., Nov.	Nursing 8 hours	Ethics of Nursing 8 hours	Chemistry 16 hours Laboratory 16 hours Recitation and Lecture	Dietetics 16 hours Laboratory 26 hours Recitation and Lecture	Anatomy 24 hours	Calisthenics 12+ hours

SENIOR A

Ethics of Nursing 12 hours Nov., Dec., Jan. (Once a year)	Special Lectures on Social Service Occupational Therapy and Hydrotherapy and other sub- jects 16 hours Nov., Dec., Jan.	Affiliated Courses from October to May				
--------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------	--	--	--	--

NOTE:—On account of the six months preliminary period, and of the elective affiliated courses, class work is carried throughout the entire year. Most subjects are given twice yearly to allow each student opportunity to attend the course. Those subjects designated as given “once a year,” are taken by groups of students in different divisions, each student carrying the course but one time.

COURSES OF INSTRUCTION NURSING

CLASSES in nursing, conducted by nurses selected for their experience, skill and knowledge, are held regularly from the time the student enters the school, until the end of the period of training.

The instruction consists of demonstrations, talks, quizzes, and is graded according to the rank of the student. Starting in the preliminary period with demonstrations of those nursing duties which may be performed in the earlier stages of training, it carries the student as she advances through every detail of nursing technique, including nursing of the sick child, and of the adult in all forms of illness. Medical, surgical, gynæcological nursing methods are carefully taken up, while nursing of the mother before, during, and after confinement, with proper care of the infant, is given emphasis. Correct operating room technique, method of care of the injured or diseased eye, ear, nose and throat all have proper presentation in this course. Class instruction is supplemented by teaching and supervision of graduate nurses in the daily routine nursing accomplished in the Presbyterian Hospital, the Central Free Dispensary, in the clinics and out door obstetrical department of the Rush Medical College, and for those who elect contagious or mental training in the Durand Contagious Hospital, and the Chicago State Hospital.

MODERN METHODS IN NURSING.....	Sanders
PRACTICAL NURSING	Maxwell-Pope
PRACTICAL POINTS IN NURSING	Stony
NOTES ON NURSING	Nightingale
FIRST YEAR NURSING	Goodnow
JUNIOR NURSE	Brown

ETHICS OF NURSING

This course also runs throughout the entire period of training and deals with the relation of the hospital to the community; the attitude of the nurse toward the patient, the public, the physician; hospital etiquette and discipline; nursing traditions and ideals. It aims to encourage student nurses to gain a broad and sympathetic attitude towards abnormal persons, whether from physical, mental or social causes, and to strengthen their attitude towards right and wrong.

The course is given by nurses qualified to suitably present it.

NURSING ETHICS	Robb
NURSING PROBLEMS AND OBLIGATIONS....	Parsons
PRIVATE DUTY NURSING	DeWitt
MAKING GOOD ON PRIVATE DUTY.....	Lounsbery
EDUCATIONAL STANDARDS	Robb
EDUCATIONAL STATUS OF NURSING.....	Nutting

HISTORY OF NURSING

The subject, presented by a nurse instructor, is given in the first and third years, the student being required to make a careful study of nursing history with the object of giving her a greater understanding of nursing traditions and ideals, the stages of development through which nursing has passed, the people and influences which have moulded the profession to its present form.

 REPORTS OF NATIONAL LEAGUE OF NURSING EDUCA-
 TION
 PUBLIC HEALTH QUARTERLY

The following subjects are presented by lectures, laboratory work, demonstrations, and quizzes, by instructors selected by the Rush Medical College, with supplementary work in each subject by a nurse instructor.

ELEMENTARY CHEMISTRY

A study of the elements and their common chemical combinations and of the fundamental laws of chemistry. It is intended to serve as a basis for the more intelligent study of Physiology, Dietetics, Household Economics, Materia Medica, and other nursing subjects.

REFERENCE BOOKS:

CHEMISTRY FOR NURSESPeters
 ELEMENTARY STUDY OF CHEMISTRY ..McPherson
 PHYSICS AND CHEMISTRY FOR NURSES.....Bliss
 ELEMENTS OF CHEMISTRY.....Remsen
 CHEMISTRY AND TOXICOLOGY FOR NURSES..Asher

BACTERIOLOGY

The study of micro-organisms as they affect the human body; methods and conditions of growth; sources and modes of infection. Practical application of the technique acquired in the laboratory is made to emphasize the necessity for surgical asepsis in the nurses work.

REFERENCE BOOKS:

PRINCIPLES OF BACTERIOLOGYEisenberg
 APPLIED BACTERIOLOGY FOR NURSES.....Boldman
 BACTERIA AND PROTOZOAFox

ANATOMY

The aim of this course is to furnish the student a practical acquaintance with the superficial, regional and general anatomy of the human body.

To this end free use is made of skeleton, manikins, anatomical charts and of material judiciously selected from the laboratory of the College for demonstration with special reference to the needs of the student nurse.

REFERENCE BOOKS:

ANATOMY FOR NURSESChristian
 ANATOMY AND PHYSIOLOGYKeniber

URINALYSIS

The object of the course is to give the student an appreciation of the normal and abnormal elimination through the urinary tract. Instruction is given in the collecting of proper specimens for analysis, in determining the reaction, the specific gravity and the amount of urea, and in testing for sugar, albumen, biliary matter, and other important abnormal elements.

REFERENCE BOOKS:

PRACTICAL URINALYSIS FOR NURSES....Marquardt
 CHEMISTRY AND CHEMICAL URINALYSIS....Amos
 CLINICAL DIAGNOSISDodd

COOKERY AND DIETETICS

This work, given by Domestic Science Graduates, covers a study of foods, sources, classification, composition, nutritive value, combinations, preparation and serving, with emphasis on invalid food and dietaries. The diet kitchen and serving rooms in the Presbyterian Hospital provide excellent laboratories.

The preliminary instruction given in the early period of training is supplemented by classes in the Senior year in which are held further discussion of the general principles of feeding in the various diseases, with formulation of diets and computation of food values.

 BULLETINS OF THE U. S. DEPARTMENT OF AGRICULTURE

MATERIA MEDICA AND TOXICOLOGY

This instruction is grouped into separate courses given by the Pharmacist of the Presbyterian Hospital, a nurse instructor and an instructor selected by the Rush Medical College.

The aim is to familiarize the student with the appearance and use of the more commonly used drugs, to develop in her habits of accurate observation regarding the handling of drugs, to secure proficiency in making standard solutions, and in the necessary figuring of dosage.

It includes the study of therapeutic action of drugs, their dosage and poisonous effects; emphasizes the need for accurate and intelligent administration of medicines, and the observation of symptoms affected by the use of them, and also deals specially with antidotes for the common forms of poisoning.

REFERENCE BOOKS:

MATERIA MEDICA FOR NURSESBlumgarten

BANDAGING

The course, conducted by a doctor or a nurse instructor, covers discussion and demonstration of the material and various types of bandages with an opportunity for the student to practice the application of bandages. The course is intended to help the student become expert with her hands and to gain a knowledge of the fundamental principles of the art of bandaging.

REFERENCE BOOKS:

PRINCIPLES AND PRACTICE OF BANDAGING....Davis
 BANDAGINGWhiting

DISEASES OF THE SKIN

These lectures take up the more common skin diseases with a review of the structure and function of the skin; inflammatory conditions and lesions of the skin with some of the treatments used.

REFERENCE BOOKS:

DISEASES OF THE SKINOrmsby
 HYGIENE AND MORALITY.....Dock

OBSTETRICS

These lectures touch on anatomy and physiology of reproduction, physiologic and pathologic pregnancy, labor and puerperium and take up such other points as are necessary to assure to the obstetrical patient intelligent and interested nursing technique and care. An effort is made to arouse interest in this branch of nursing, to point out its importance on the welfare of the race and its vital social aspects.

REFERENCE BOOKS:

OBSTETRICS FOR NURSES.....	DeLee
A NURSES' HANDBOOK OF OBSTETRICS.....	Cooke
OBSTETRICS FOR NURSES	Reed
APPLIED BIOLOGY	Bigelow
PRENATÆ PAMPHLET, PUBLISHED BY FEDERAL CHILDREN'S BUREAU	
TEXT BOOK OF OBSTETRICS.....	Webster

PHYSICAL EDUCATION

A course is given during the preliminary period in simple gymnastic exercises. The object is to develop the muscles of the back, neck, feet, and other not commonly used muscles, so that the student may be ready for the eight hour day of nursing in the hospital. This is given by an instructor from one of the Chicago Schools of Physical Education.

SPECIAL LECTURES AND CLASSES

These lectures are given by specialists and cover many subjects. They are supplemented by classes in which the students have opportunity to discuss questions and problems important for them to be informed upon. Some of the subjects covered are:

- Tuberculosis—care of patients and its social aspect.
- Special orthopedic apparatus and its intelligent use.
- Psychology—the value to the nurse of a knowledge of its principles.
- Anæsthesia—administration, kinds and dangers.
- Hospital Social Service.
- Hydro-therapy.
- Occupational Therapy.

A general survey of the nursing field, including the various forms of nursing open to the graduate nurse.

Modern Social Conditions.

Other subjects as opportunity arises.
